**QT426-811-5** Security Surveillance System

**KEY FEATURES:**

- Free “QT View” Mobile Viewing App on Supported Smartphones
- 400 TV Lines of Resolution
- 40 Feet Night Vision
- 500GB SATA A/V Hard Drive
- CIF/D1 Recording Options
- Indoor/Outdoor Camera Use
- Remote Monitoring
- Email Motion Alerts
- Connect up to 8 more Cameras!

Imagine this – you’re dining at your favorite restaurant and suddenly, your cell phone alerts you of a potential break-in at your home. Or picture yourself witnessing theft activity in real-time, while viewing live video footage from your iPhone. Both of these scenarios are possible with a high-quality Q-See surveillance system like the QT426-811-5.

The QT426-811-5 includes a pre-installed 500GB hard drive that supports up to 2 terabytes, and 8 day and night cameras. These weatherproof cameras capture quality images with 24 LED lights, and night vision range of up to 40 feet. For maximum customization, connect up to 8 more security cameras.

If you’re away from your surveillance system, count on up-to-the-minute notifications with email alerts that include snapshot images. Know when motion is detected, when the hard drive is full, or if video or network loss has occurred from up to three different email addresses. You can stream live video directly to your PC over the Internet or to your supported Smartphone. Q-See is a trusted leader in surveillance solutions for home and business environments, offering **Peace of Mind – Anywhere, Anytime.**

**DVR FEATURES:**

**H.264 COMPRESSION**
Superior H.264 video compression minimizes file size in order to maximize the recording time without affecting the image quality. This allows you to efficiently store and transfer high quality video using less space on your hard drive.

**500GB HARD DRIVE SIZE**
Record and store video footage on the pre-installed 500GB SATA A/V hard drive. This system can support a hard drive upgrade of up to 2TB SATA hard drive.

**REMOTE MONITORING**

Remotely monitor and manage your home or office 24/7 from anywhere around the world via the internet using a Windows PC, MAC OS, or a supported 3G Smartphone, including iPhone™/iPad™, Android, Blackberry™ OS 5, and Windows Mobile Pro. Enjoy additional peace of mind by receiving instant email alerts with snapshot images when motion is detected, when the hard drive is full, or when and if video loss has occurred.

**RECORDING RESOLUTION / FRAMES PER SECOND**

Select CIF or D1 recoding depending on your preference. CIF provides real-time recording and smooth video playback [30 frames per second per channel at a playback resolution of 352x240]. While D1 records at a slower frame per second, but allows a larger video image size, which can be useful for the recognition and identification of people and objects [7.5 frames per second per channel at a playback resolution of 704x480].

**FOUR RECORDING MODES**

Select from 4 different recording modes:

- **Advanced Motion Detection:** Advanced motion detection settings help to minimize false alarms. The easy-to-use motion detection set-up screen allows you to mask out certain areas which frequently experience heavy movement in order to avoid false alarms and unnecessary triggers.
- **Time-Schedule:** Record based on a pre-set schedule that you choose depending on your needs. For example, only at night, only during office hours or only during non-business hours.
- **Alarm Sensor Trigger:** Only records when the alarm sensor has been triggered. (Alarm sensor not included.)
- **Manual:** When set to manual, the system can be turned on to record 24 hours a day, 7 days a week or until you manually turn it off.

**THREE VIEWING MODES**

**Single Cam:** Display 1 camera at a time
**Multi-Cam:** Display 2, 4, 8, or all 16 cameras at once on a split screen.
**Timed Auto-Sequence:** Display a timed-auto sequence, which shows each camera for a few seconds and rotates the view through all cameras one at a time.

**MULTI-TASKING FUNCTIONALITY**

The multi-tasking feature allows up to five functions to occur on the system at one time: record video, watch live video or playback video, while also monitoring and managing the system remotely, and also backing up files.

**THREE SEARCH OPTIONS**

Quickly find previously recorded video by searching in one of three ways:
**Time:** search video within a specific time frame
**Motion Detection Event:** search video by occurrences of motion
**Alarm Triggered Event:** search video by items that triggered an alert.

**CONVENIENT BACKUP**

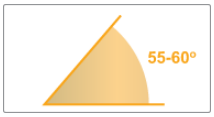
Backup video files from the surveillance system to a PC, Flash Drive or USB Hard Drive in order to free-up space for new video while retaining important footage.

**CONNECTS TO A MONITOR**
Display on any TV or 19” or larger PC Monitor (16 BNC input, 2 BNC and 1 VGA outputs). The system supports multiple VGA resolution settings: 800x600 and 1024x768.

**CAMERA FEATURES:**

**INDOOR/OUTDOOR CAMERAS**
Q-See cameras are always an excellent choice for capturing activity indoors or out, day or night with 1/4" image sensors and 400 TV lines of resolution.

**NIGHT VISION**
These eight cameras are each equipped with 24 infrared LED lights that can record at a distance of up to 40 feet in the dark.



**FIELD OF VISION**
These cameras are equipped with a 3.6mm lens, which provides a 50 - 55° radius of vision

**CABLES**
Each camera includes a 60 foot cable so that you will have everything you need for installation.

**THEFT-DETERRENT MOUNTING BRACKETS**
Flexible 3-Axis brackets allow for more precise positioning of the cameras, while guiding the cables directly through the camera brackets to reduce the threat of vandalism to the cameras.

**Operating Systems**
Windows XP, Windows Vista, Windows 7, and MAC OS X 10.6 & 10.7

Mac Compatible

**Internet Browsers**
Internet Explorer (IE), Google Chrome or Mozilla Firefox with IE Plug-in

Firefox Google

**What's Included?**

16-Channel H.264 DVR with 500 Gigabyte Hard Drive (QT426-5)
(8) Indoor/Outdoor Cameras with 3-Axis Brackets (QSM1424W)
(8) 60ft RCA-Audio, Video, Power Cable for flexible installation
(1) Power Supply and 8-Way Splitter for Cameras
USB Mouse and Remote Control
Quick Start Guide
Product Manual
Power Cord for DVR
RJ-45 Ethernet Cable
BNC to RCA adapter
1-year Q-See Warranty & Lifetime Technical Support
